RESEARCHING UNIVERSITIES

University Visits

Please consider visiting several universities as you will be spending 1 to 4 years of your life there. Most universities have virtual open houses and tour days this year. Those dates are posted on the university websites, as well as in a resource in our Google Classroom.

Tip: November Break occurs November 2- November 6 and March Break is from March 15- March 19. Why not use those days to go on a tour of the colleges you're interested in? What a great time to check out some campuses!

Viewbooks

Viewbooks are information books published by the universities. Viewbooks usually contain:

- Academic requirements and regulations
- Course or subject descriptions
- Admission information
- Awards and financial assistance
- Schedule of fees
- List of faculties and degree granted
- Campus map
- Special campus services
- Recreation centre and athletics
- Residence & libraries

Viewbooks can be found in the Guidance office (to be used in office), and the OUAC website, this is the website where you can apply to university.

Viewbooks are information publications (snapshots) that provide important information about programs, prerequisites, residence and activities. Viewbooks can be found in the guidance office, university registrar's office and online.

University Websites

All universities have their own websites. We recommend bookmarking the universities that interest you. Also, make sure you use the websites listed in this package.

7. **June 1, 2027**, is the earliest date you may be required to respond to an offer of admission and give financial commitment of any kind (e.g. registration deposit, residence deposit, etc.)
8. Students should start looking into scholarship opportunities in September and continue throughout the year. Scholarship information can be found on our website, as well as in the Guidance office, and the Grade 12 Graduating Google Classroom.
9. **TIP FOR ALL GRADUATES: Start a Portfolio** – a safe, organized binder/folder to keep your education documents. Documents might include report cards (especially from Grade 12), IEPs, diplomas, etc. High schools do not keep these records in your OSR for all eternity. Also, diplomas are not re-issued – you get only one copy. Keep it safe! Community hours are also very important to keep copies of. The office only records the first 40 hours. Please keep your own record of community hours.
10. Understanding degree programs:
 - **UNDERGRADUATE STUDENTS** are working towards their first university degree. An undergraduate degree is the first degree earned by a university student. The undergraduate degree is called a *Bachelor's Degree*.
 - **GRADUATE STUDENTS** have already earned a university degree and are working on a Masters or Doctorate Degree (PHD).

Application to Out of Province Universities – be aware that there are significant differences in the procedures. First, there is no liaison between out of province universities and Ontario Secondary Schools. Therefore, students have to contact the university to find out information, including how to obtain applications and when the applications are due. Also, students are responsible for all follow-up information, including ensuring interim and final marks are sent in on time. Please note that since there is no common application processing center, each out of province university has different procedures & dates.
